Dr. Oswal's SSPE Treatment G Therapy (NeuroG) Medicine

- Breakthrough research in SSPE
- 70+ SSPE patients from around the world showing positive results including Stage 2 onwards patients
- Clinical improvements seen along with EEG improvements
- Retrospective study suggests neurological benefit at cellular level in SSPE

Some 70 patients of SSPE have shown perceptible improvements in cognitive and motor functions with G Therapy (NeuroG) Medicine treatment at the Center for Life Sciences, Health and Medicine in Pune, India. This is perhaps the largest such SSPE cohort improving anywhere in the world.

Improvements are also seen in their EEG. Several international observers have reviewed this research - including Neurologists from India and Germany, OT board member from USA and parents from all over the world.

G Therapy (NeuroG) Medicine is a combination of biochemic salts and plant-based homeopathic medicines developed by Dr. Gunvant Oswal and Dr. Pooja Upasani.

The individual ingredients of G Therapy (NeuroG) Medicine are approved in homeopathic pharmacopeia worldwide including India, USA, UK, Germany, etc, and have been in common use for over 100 years around the world, attesting to their popularity and safety.

Homeopathic medicines are considered free from adverse side effects because of their high dilutions.

Modern advances in medical science in the area of nanotechnology help us in understanding the mechanism of action of homeopathy and biochemic tissue salts present in G Therapy (NeuroG) Medicine.
